

UNILOCK®

OUTDOOR LIVING | DRIVEWAYS | WALKWAYS & ENTRANCES | POOL DECKS

DESIGNED
TO CONNECT™

Unilock® introduced paving stones to North America

Classico® - First circle paver system introduced offering the ability to create free flowing curvilinear designs

Unilock® established the Authorized Contractor Program

Pisa2® - The most flexible modular retaining wall system in the market is introduced

Series 3000® - First EnduraColor™ Plus product, combining aggregates such as granites and marbles into a variety of large format pavers

1972 1973 1974 1983 1986 1989 1991 1992 1993 1995

First contractor seminar – Promoting quality installation from the beginning

First plant in Barrie, Ontario

Lockstone® - First industrial paver developed for mechanical installation

Uni Eco-Stone® - First permeable paver developed for mechanical installation

Brussels Block® - First tumbled paver that revolutionized the industry by tumbling concrete pavers to closely resemble natural stone

First commercial job installed at the Toronto Zoo

Brussels Dimensional Stone® - First tumbled wall system

40 YEARS OF EXCELLENCE

Unilock® is the only North American member to join the prestigious European Stein + Design® innovation and manufacturing group

Courtstone®, Copthorne® & Richcliff® - Featuring Reala™ realistic surface textures and Ultima™ Technology for enhanced color and superior strength

Avante Ashlar™ - Combined several shapes of varying textures into one module for faster installation

EUROBETON

Unilock® is the only North American member of EUROBETON – Another exclusive European concrete product innovation association

Umbriano® - First product to have a Colorfusion™ surface for unique granite-like appearance

Town Hall™ - First permeable paver replicating historical street pavers

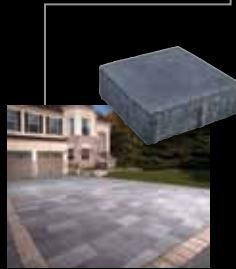

1996 1997 1999 2004 2005 2007 2008 2009 2010 2012

Il Campo® - Unique, new surface texturing technology

Rivenstone™ & Yorkstone™ - The look of quarried stone in large scale pavers

Belpasso® - Featuring TitanTec™ surface protection, the first paver to prevent dirt, oil and gum from permanently staining the surface

Unilock® Elements - First pre-built modular units taking outdoor living to a new level

Rivercrest™ Wall – First wall system to incorporate real life textures (Reala™) and a patented structural lockup for ease of installation

Forty years ago, Unilock® introduced pavers to North America and changed the way people think about paving. Since then, we have led the style and technology trends in outdoor living spaces. Customers tell us that they chose Unilock® because we made their space “pop” while everything else looked the same. We hope this book will inspire you to create your own special, welcoming outdoor spaces that are **Designed to Connect™** your family, friends and loved ones.

OUR PROMISE

For the past 40 years we've been committed to investing in the future of landscape design. Today, we continue to lead the industry in style and technology. We've made this commitment because at Unilock®, we feel your outdoor space must be designed to connect with your home. So, it's no surprise more families are choosing to work with architects, designers and craftsman who recommend products from our line of unsurpassed Unilock Select™ pavers.

So if you're planning to landscape your home, we're confident that you'll be inspired by what you're about to see. Be sure to check out a couple of our most recent innovative additions, Town Hall™ paver and Rivercrest™ wall.

We work hard to bring you the best selection of quality products and support because we believe that the outside of your home should be as beautiful, functional and welcoming as the inside of your home.

OUR QUALITY

TRUST UNILOCK

Thousands and thousands of homeowners have found Unilock to have the best combination of products, dealer and installer networks, customer support and product guarantee. When held, touched and viewed side by side, Unilock products look and feel different, and set the standard for quality.

PRODUCT QUALITY

Unilock's manufacturing teams have an unrelenting commitment to shipping only top quality products. During the manufacturing process we:

- » test all of our raw materials carefully;
- » perform hourly product density tests;
- » meet all dimensional tolerances;
- » ensure every stone is inspected by dedicated quality control staff; and
- » exceed industry quality standards (ASTM & CSA)

Our *world class production facilities* are renowned for their safety and cleanliness and are staffed with the most experienced production people in the industry. Our continual investment in the most technologically advanced equipment ensures we're able to provide the best in product quality, consistency and design.

EVERY UNILOCK® PRODUCT:

- » Is colorfast
- » Is slip resistant
- » Resists de-icing salt
- » Resists salt water
- » Resists chlorine
- » Will not deteriorate from oil or gas spills
- » Is backed by our Lifetime Guarantee

OUR TRANSFERABLE LIFETIME GUARANTEE

Unilock® provides a Transferable Lifetime Guarantee on the structural integrity of our paving stones, slabs and retaining wall units for residential use. Any materials installed and maintained to our guidelines,

and subject to normal wear, that prove defective, will be replaced without cost. Color matching cannot be guaranteed and replacement labor is not included. Registration is required.

To register your project, visit www.unilock.com and follow the registration instructions. This must be done within 60 days of your dated proof of purchase. You will receive a Transferable Lifetime Guarantee Certificate for your records.

STYLE +

YOUR SIGNATURE STYLE

Your home design should connect with your distinctive sense of style. Unilock's versatile palette of colors, textures and European-inspired styles help to create your own custom outdoor living spaces. Our Select line of products offer pavers and walls cast from actual basalt cobblestones, historic brick street pavers and quarried stone textures from European village streets and squares. Or choose the sleek modern lines and random color dispersion of our granite-like slabs. Unilock® is the only company that can give you the exclusive products to design one-of-a-kind outdoor spaces. That's why we're the preferred choice for design professionals and homeowners alike.

UNILOCK OFFERS YOU:

- Designer-inspired color palette
- Sleek, contemporary styles with clean lines
- Vintage stone and weathered brick textures
- Vast array of shapes, sizes and laying patterns, including some of the largest format sizes available
- Compatible borders, insets and accents that complement your home's exterior
- Matching wall products for walls, steps, seating and pillars

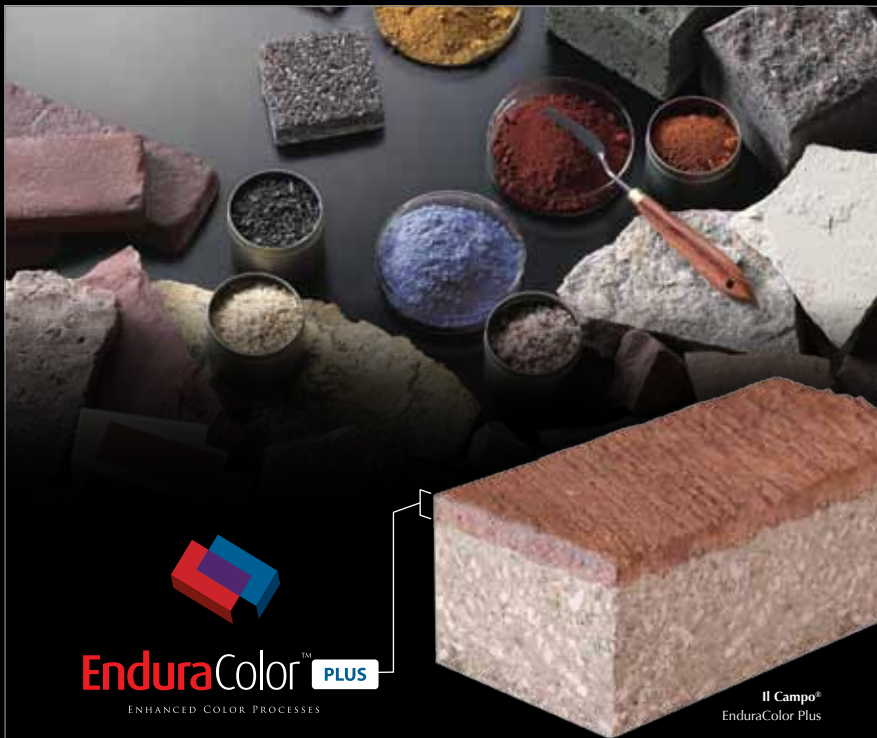

“ Our contractor brought us many samples but the one he recommended the most was the Richcliff with a Courtstone border. He was right! Everyone who sees our backyard loves the Unilock product and his thoughtful design. We entertain so much more now too. ”

Tammy & Andy Murphy

TECHNOLOGY

OUR COLOR AND PERFORMANCE TECHNOLOGIES

Unilock Select™ pavers lead the industry with proprietary technologies that provide exceptional strength, resilience and beauty, ensuring that your paver and wall projects will provide many years of enjoyment.

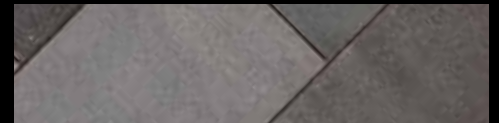

Unilock is able to deliver on style because our technologies allow us to make the most unique products that connect your design to your personal taste. Unilock's EnduraColor Plus is the defining difference when it comes to superior wear resistance and color longevity. EnduraColor Plus is not a coating or secondary treatment, but rather a proprietary blended layer of nature's highest performing minerals (which never fade) that have been embedded right into the surface of each stone during the manufacturing process. This ensures that the surface will not fade, crack, peel or delaminate.

For over 20 years, Unilock has set the standard with our exclusive EnduraColor™ Plus and EnduraColor™ processes.

C **ColorFusion™ Technology**
Random surface color for a natural granite-like appearance.

E **EasyClean™ Stain Resistance**
An integral surface protection that allows for easier cleanup of spills, when they happen, and before a stain can develop.

R **Realta™ Surface Technology**
Ultra-realistic textures cast from actual natural stone, brick and cobblestones.

T **TitanTec™ Surface Technology**
The absolute ultimate in color and wear performance, and stain resistance.

U **Ultima™ Concrete Technology**
For heavy traffic loads, this proprietary manufacturing process creates pavers and walls with up to 4 times the strength of poured concrete.

THE CHOICE OF DESIGN PROFESSIONALS

The same product that you use for your outdoor enjoyment around your home is designed and installed in some of the most prestigious commercial spaces in North America. Architects, landscape architects and engineers trust Unilock® to make their commercial spaces uniquely inspired and to withstand the toughest rigors of a commercial environment.

01 Barclays Center. Brooklyn, New York. *Design: Forest City Ratner Companies and SHoP Architects.*

02 Trump International Hotel and Tower. Toronto, Ontario. *Design: IBI Group and UCC Group.*

03 Air Canada Centre. Toronto, Ontario. *Design: Ferris & Associates Inc.*

04 Buckingham Fountain. Chicago, Illinois. *Design: Thompson Dyke & Associates.*

THE CHOICE OF THE BEST CONTRACTORS & CRAFTSMEN

Like a good artist needs the right paint, the best contractors use the Unilock palette of exclusive colors, textures and styles to showcase their creativity and workmanship. These artisans trust Unilock to continue to provide them with the tools they need for the cutting edge design and the highest installation standards that sets them apart.

CHOOSING A PROFESSIONAL INSTALLER

We recommend the use of professional landscape contractors for your project. You are making an important investment in your home. Don't let poor workmanship turn your ideal plan into a disappointment. Proper site preparation with the correct grading, base material and compaction is key to ensuring that your new patio or driveway looks great and stays even and safe for years to come.

The majority of installation costs are usually ground preparation and labor. Opting for a premium quality paver won't significantly increase the overall cost, so choose the best you can afford.

WHAT TO EXPECT FROM YOUR PROFESSIONAL CONTRACTOR:

- » Written quote for your project
- » A detailed drawing and/or computer rendering of your project containing all the features that you requested
- » Approximate start date
- » A reasonable estimate of the time required to do the job
- » References from homeowners with similar projects
- » When comparing quotes, make sure that you compare on an apples-to-apples basis and understand service levels; cheapest is typically not the best choice
- » A written confirmation of your contract with their installation guarantee clearly stated
- » Proof of liability insurance and workers compensation coverage

For more detailed information on how to choose a contractor, visit www.unilock.com and download "Before You Start".

DESIGNING A PAVING STONE DRIVEWAY

1 Complement the Design of Your Home

A Unilock® driveway will enhance the **curb appeal** of your home and demonstrate your pride of ownership. As you consider the materials that you will use, try to replicate, **augment or complement** the architectural features of your home. The size of a driveway is typically dependent on the width of your garage and cut-out at the curb. A **graceful flair** at the street edge will allow cars to enter and exit with ease.

3 Consider a Permeable Surface

If a large portion of your lot is a hard surface or if your lot is subject to periodic flooding, permeable pavers are now an option. Most Unilock permeable pavers look just like our regular pavers so you don't have to compromise style when choosing an **ecological solution**. Whether you are installing a rainwater harvesting solution, or just want to be ecologically minded by **diverting rain water** back into the ground, specialized site preparation and installation techniques are required.

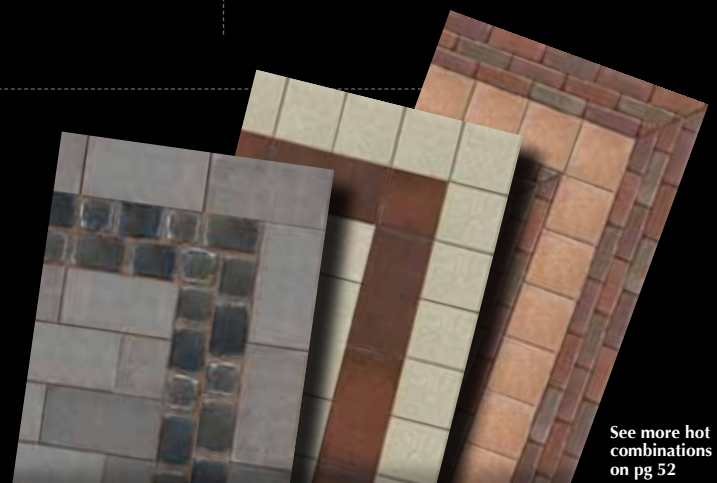

4 Borders, Accents and Accessories

For large driveways, wide borders and banding will make the area appear smaller. All Unilock Select™ pavers are ideal for **creating accents or borders**. We even offer luminescent NighTec® pavers to help you park at night. Consider an accent design laid in the main paver area to add your **personal signature** to the project. To help you visualize the paver combination that best accents your home, order Unilock's life size Uvision™ **sample swatches** online or at 1-800-UNILOCK.

2 Choosing the Right Product

Choosing the right products for your driveway is an important decision. Driveways are subject to a lot of use and abuse by vehicles, people, equipment and chemicals such as de-icing salt. Unilock Select™ products **outperform** other paving surfaces such as asphalt, poured concrete and stamped concrete. In addition, Unilock has pavers that **repel dirt**, oil and even chewing gum!

See more hot combinations on pg 52

LANDSCAPING THE ENTRANCE & FRONT OF YOUR HOME

1 The Front Courtyard – The Hottest Trend!

One of the hottest front entrance design trends is the incorporation of the courtyard. Like a front porch of old, a courtyard provides a **cozy nook** where you can sit and relax, **connect with your neighbors** or wait for your kids to arrive home from school. Courtyards provide personal space for you and your loved ones. Include seat walls for a **sense of privacy** and casual seating or end pillars, which can be used to mount beautiful and functional **lanterns**.

2 Complement the Design

The exterior of your home should set the stage for design, textures and colors that you choose. Consider replicating, **augmenting and complementing** certain architectural features. Our life-size Uvision color swatches can help you decide which products best suit your home. Call us at 1-800-UNILOCK to order your swatches.

3 Scale and Proportion

Great front entrance design happens when you keep scale, proportion and function in mind. Remember, a front walkway should never be less than **4 feet** in width at any point. The walkway opening near the driveway should never be less than **16 feet** wide, making your entrance **inviting** and allowing you to **easily access** your walkway when getting out of a parked car close to the house.

4 Adding Curb Appeal

Any realtor will tell you that curb appeal will **increase your return on investment** and that homes with great entrances **sell faster** and for more money. Consider making simple yet unique changes to your design by incorporating a border, planters, seat walls and pillars.

5 Make it Safe and Practical

Making your entrance safe and practical is also very important. Consider adding **lighting** to your design with elements such as pillars with light fixtures, Skyfuel lights embedded in the pavers or NighTec Pavers which glow in the dark. Lighting adds both class and functionality. For **superior slip resistance**, we recommend Unilock Select products.

DESIGNING AN OUTDOOR LIVING SPACE

1

Examine your lifestyle

The desire to maximize our time outside is irresistible. As you begin your project design, think about how you want to use the space. Do you love to entertain large gatherings of friends or just an intimate few? Is outdoor cooking your passion? Are you looking for a quiet oasis to read or gaze at your garden? Does the perfect evening include watching the flames in a fireplace or fire pit? Perhaps you'd prefer to watch the game on an outdoor TV. Make a list of all of your "must-haves".

2

Create Rooms

As you design your outdoor space, create **distinct areas** for cooking, dining and entertaining or relaxing. You can define these spaces by **changing the elevation** with 1 or 2 steps, using complementary pavers for each area or by using **banding** to break up the areas. Seat walls are another excellent way to create this separation. They also provide **added seating** for large get-togethers and eliminate the need for extra furniture.

3

Create the vertical dimension

By adding the vertical dimension to your design, you can truly transform a patio into an **outdoor living** area. Grill islands, fireplaces, water features, seat walls, planters and pillars all add to that outdoor room feeling. Incorporating the same **accents** from the horizontal surfaces in the vertical surface creates a harmonious and unified design.

4

Designing the horizontal surface

The floors of your outdoor rooms can be made more interesting by your choice of **laying patterns** or by using borders to create the look of an area rug for furniture groupings. **Borders and inset lighting** can help to visually delineate steps. In cooking areas, or if you have messy eaters, our EasyClean™ paver Umbriano®, provides a virtually impenetrable shield that prevents stains and makes clean up easy.

DESIGNING A POOL DECK

1 Design Considerations

There's more to designing a pool deck than meets the eye. If you have the opportunity to plan your design before the pool is installed, you will want to make sure you address certain things, including:

- » **Elevation.** You need to consider elevation so that you can properly plan steps, multilevel areas, and retaining walls.
- » **Size.** For basic pool access, a 4 foot perimeter is sufficient. If you intend to use the pool deck as a patio for entertaining or sunbathing, consider the size and amount of furniture you wish to incorporate.
- » **Drainage.** Drainage should always be away from the pool and your home. In areas where it is difficult to grade the pool decking, we recommend that you install drains that will transport excess rainwater to an appropriate location.

2 Selecting the right product

- » **Main Paver.** Pool pavers should provide a non-slip surface and should be lighter in color so that the surface does not get too hot to walk on.
- » **Coping.** Pool coping is the edge closest to the water. Although almost any Unilock® paver can be used as a coping, there are some which are more suitable than others. Brussels Fullnose™ and LedgeStone™ are great choices because they don't have abrasive edges. Consider a contrasting color for your coping to help define the pool edge.
- » **Inset Borders.** Inset borders also help define the pool edge but also allow you to complement the colors of your home.

3 Lighting and Water Features

- » **Lighting.** Lighting is a great way to accent the pool deck surface texture and to give additional safety around the pool when using it after sunset. You may want to consider our NighTec® luminescent pavers or Skyfuel lights to act as a guide.
- » **Water Features.** Water features add interest to your pool area both visually and audibly; there's nothing more relaxing than the sound of a gentle waterfall.

DESIGNED TO CONNECT™

CREATING THE PERFECT OUTDOOR SPACE.

A pre-built Elements Fireplace adds warmth and extends your season.

Add an area rug of pavers, using a contrasting paver style and color.

Whether your home is an intimate city dwelling, a comfortable suburban residence, a country retreat, or a sprawling estate, Unilock® has the right products and design options that connect with your lifestyle, while fitting your needs and budget considerations.

Under-coping wall lighting will show off and highlight your vertical surfaces.

When entertaining family, friends or neighbors, seat walls provide additional seating.

Walls provide a sense of privacy for a room-like feel. Seat walls can be nicely anchored by pillars with lanterns to provide practical yet beautiful lighting.

Add a personal touch to your overall design by creatively accenting with Unilock® borders and banding around your patio and other vertical features.

Driveways

It's your home. You've worked hard to make it your place of comfort and contentment. A Unilock® driveway is the exclamation point to the pride you feel every time you come home.

- Safe non-slip surface.
- Withstands heavy vehicle weights.
- Will not break down from oil or gas spills.
- Resistant to de-icing salt.
- Withstands severe freeze-thaw cycles.
- Easy to clean snow from surface.
- Exceptional long-term surface performance.
- Perfect for permeable applications.

- ⬆ Umbriano® (Autumn Sunset) with Umbriano® star (Midnight Sky and Winter Marvel) and Cophorne® (Burgundy Red) accents.
- ⬅ Courtstone® (Basalt) with Brussels Block® (Sandstone) accent.
- ⬇ Avante Ashlar™ (Almond Grove) with Courtstone® (Basalt) inset and Brussels Block® (Sandstone) accents.

Pavers - Richcliff® (Pebble Taupe / Dawn Mist) with Courtstone® accent.

Pavers - Courtstone® (Basalt, Belgian Blue and Dawn Mist, blended on site) with Copthorne® accent.

Pavers - Belpasso® (Nuvola) with Umbriano® (Winter Marvel) and NighTec® accents.

Pavers - Courtstone® (Basalt) with Unigranite® (Rose) accents.

Pavers - Umbriano® (Autumn Sunset) with Cophorne® (Burgundy Red) accent.

Walls, Pillars & Steps - Olde Quarry® (Sierra) with Copthorne® accent and Ledgestone™ (Buff) coping.

Finishing Touches

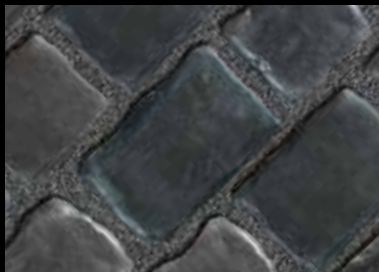

The following three pages will show you how to transform your outdoor project into a work of art by implementing some of the latest trends when it comes to paver borders, paver rugs, paver lighting, colored joint sands, and wall accents.

We recommend that you visit www.unilock.com for additional border and accent ideas. Try out our online Uvision™ paver selection tool and explore countless options for your signature design. You can also order life-size, true color Uvision sample sheets to help you make your final decision.

JOINTING COMPOUND

SMALL DETAIL, BIG DIFFERENCE

By changing the jointing sand color, you can dramatically change the look and feel of your paver surface. Your choice of color sand can be selected to complement things such as house siding color, the paver or border color, or the color of your vertical elements. Below are some examples that illustrate the difference in appearance.

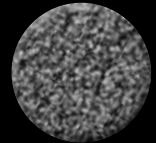

Courtstone® (Basalt / Belgian Blue)

Town Hall™ (3 colors - blended on site)

Richcliff® (Dawn Mist)

BLACK SAND

Courtstone® (Basalt / Belgian Blue)

Town Hall™ (3 colors - blended on site)

Richcliff® (Dawn Mist)

TAN SAND

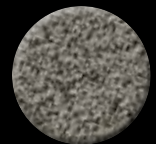

Courtstone® (Basalt / Belgian Blue)

Town Hall™ (3 colors - blended on site)

Richcliff® (Dawn Mist)

GREY SAND

PAVER ACCENTS

Much like you would design a tile project inside your home, you start by selecting a main paver and then complementing with one or two accents. Beyond the color combinations, we also recommend that you experiment with various border widths. Very large areas can have borders that are even 3, 5 or 7 rows wide. This helps to manage visual scale and proportion.

Richcliff® (Dawn Mist) with Cophorne® (3 color blend) inset border.

Belpasso® (Castano) with Umbriano® (Summer Wheat) inset border.

Avante Ashlar™ (Almond Grove) with Cophorne® (3 color blend) inset and Umbriano® (Summer Wheat) border.

Belpasso® (Nuvola) with Umbriano® (Winter Marvel) inset border.

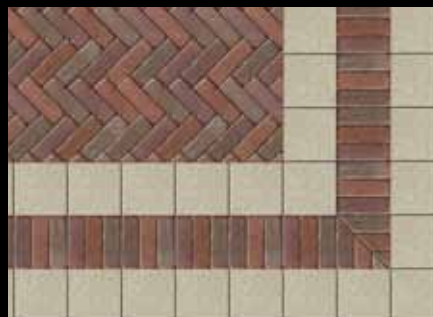

Cophorne® (3 color blend) with Brussels Block® (Sandstone) inset border.

Courtstone® (Dawn Mist/Pebble Taupe) with Cophorne® (3 color blend) border.

Umbriano® (Winter Marvel) with Belpasso® (Nuvola) inset border.

Cophorne® (3 color blend) with double Umbriano® (Summer Wheat) border.

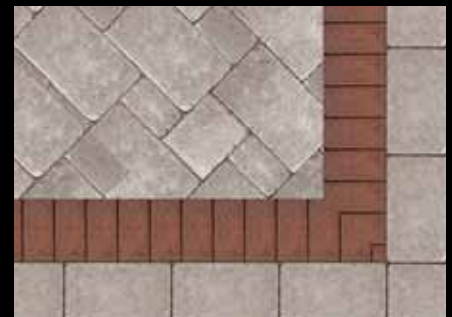

Courtstone® (Basalt & Belgian Blue) with Brussels Block® (Sandstone) inset border.

Richcliff® (Dawn Mist) with Courtstone® (Basalt & Belgian Blue) border.

Umbriano® (Autumn Sunset) with Cophorne® (3 color blend) border.

Brussels Block® (Sandstone) with Il Campo® (Heritage Brown) inset and Brussels Block® (Sandstone) border.

WALL ACCENTS

For a completely harmonious design, design your walls, pillars and grill islands, to complement your paver selection. Simply incorporating the same color banding in the wall as used in the paver surface will bring the entire project design together.

Umbriano® (Summer Wheat) with Belpasso® (Castano) inset border.

Estate Wall® (Sierra) with Series 3000® (Onyx Black) accent.

Estate Wall® (River) with Unigranite® (Black) accent.

Brussels Block® (Sierra) with Series 3000® (Onyx Black) inset border.

Brussels Dimensional Stone® (Sierra) with Copthorne® (3 color blend) accent.

Olde Quarry® (Sandstone) with Unigranite® (Rose) accent.

Rivenstone™ (Canyon) with Copthorne® (3 color blend) inset and Umbriano® (Autumn Sunset) border.

Estate Wall® (River) with Unigranite® (Rose) accent.

Olde Quarry® (Sandstone) with Copthorne® (3 color blend) accent.

Il Campo® (Heritage Brown) with Brussels Block® (Sandstone) inset and Il Campo® (Heritage Brown) border.

Brussels Dimensional Stone® (Sandstone) with Unigranite® (Slate) accent.

Estate Wall® (Sierra) with Copthorne® (3 color blend) accent.

UNILOCK SELECT™

Unilock Select™ products are next-generation pavers and the most technologically advanced in the industry. Why Unilock Select? The features speak for themselves. From stain resistant technology to impeccable surface design, Unilock Select pavers will give you superior durability with an exclusive appearance. Imagine your driveway, patio or pool deck beautifully appointed with a creative combination of Unilock Select pavers which will retain their vibrant color and surface texture longer than any other paver surface.

- ⬆ Pavers - Richcliff® (Dawn Mist) with Il Campo® (Dark Charcoal - custom color) accent. Walls - Estate Wall® (Sierra) with Il Campo® (Dark Charcoal - custom color) accent.
- ⬅ Pavers - Courtstone® (Belgian Blue / Dawn Mist - Blended on site).
- ⬇ Pavers - Umbriano® (Winter Marvel) with Umbriano® (Midnight Sky) accent.

Belpasso® is the epitome of innovation. Belpasso® outperforms any other paver surface when it comes to surface wear, color retention and its ability to repel even the nastiest staining substances, including strong acids.

CLASSIC

Unilock® introduced the classic paver to North America more than 39 years ago in a variety of shapes and colors. Eventually, we began to tumble our pavers to add additional character and appeal. When it comes to durability and design, Unilock classic pavers have stood the test of time and are the “tried and true” brand. They are used in almost every type of paver installation you can imagine. Combine our classic pavers with Unilock Select™ products to create a classic yet elegant signature look.

- ⬆ Pavers - Avante Ashlar™ (Oakwood) with Brussels Block® (Sandstone) accent.
Walls - Brussels Dimensional Stone® (Limestone) with Il Campo® (Oakwood) accent.
- ⬅ Pavers - Brussels Block® (Sierra) with Copthorne® (Burgundy Red) accent.
- ⬇ Pavers - Avante Ashlar™ (Shadow Creek).
Walls - Estate Wall® (Sierra) with LedgeStone™ coping.

BRUSSELS BLOCK®

Introduced by Unilock®, Brussels Block® is the original tumbled paver of North America. Its timeless warmth, relaxed appearance and tumbled finish make it a one-of-a-kind paver that reflects the design cues of quarried stone.

PERMEABLE PAVERS

Unilock® has always been on the forefront of permeable paving in North America. Our European alliances in this industry have allowed us to look into the future of how rain water is captured, retained and managed for growing urban areas. Originally a commercial endeavor, permeable paving is becoming an important residential best practice. Permeable paving is important for two main reasons: first to ensure that ground water levels are restored and/or maintained, and secondly, to harvest rain water for use in irrigation and other household uses. With Unilock permeable pavers, you not only have the guaranteed quality of our stone, but also the aesthetic beauty of an exclusive surface texture!

- ↑ Pavers - Town Hall™ (3 colors - blended on site).
- ← Pavers - Eco-Priora™ (Heritage Brown) with Brussels Block® accent.
- ↓ Pavers - Eco-Priora™ (Heritage Brown).

Eco-Priora™ is the perfect permeable solution for any residential or commercial installation. Not only is it eco-friendly and design savvy, but its Il Campo® finish ensures long lasting surface color with the EnduraColor™ Plus feature.

VERTICAL DIMENSIONS

Unilock®, well known for its quality and beautiful paving products, also manufactures wall systems which allow you, your landscape designer, or your contractor to design and build almost anything imaginable! Beyond steps, pillars, seat walls, and grill islands, creative features such as outdoor showers, mailboxes, waterfalls, and entrance archways are only the beginning of what can be designed for your outdoor living retreat. The greatest exclusive design feature of Unilock vertical walls and elements is that you can incorporate Unilock Select™ pavers into the face, which uniquely tie in your vertical design to your horizontal design.

LEDGESTONE™ COPING & PILLAR CAP

R

Ledgestone™ coping and pillar cap is Unilock's universal coping system that is turning heads with its remarkably natural yet refined appearance. Featuring pitched edges and three color options to work with, Ledgestone™ can be used to cap almost any Unilock® landscape wall. Ledgestone™ units are longer in size than typical wall system caps, which allows for a more accurate and pleasing end result. Whether you are building pillars, seat walls, steps or grill islands, Ledgestone™ is the preferred coping.
